

Schiltigheim , 17th July 2021

To the attention of all the participants of the 2021 EMC

The new development of the Covid 19 in France and the sanitary and health worries pointed out by our President Macron have put us in a very difficult situation which does not allow us any more to organise the competition in chilled conditions.

After having consulted the local officials and the volunteers, and being obliged to immediately engage heavy costs (without knowing what the future could be), the Organising Committee was realizing that all the elements were not gathered to propose you a satisfying competition and has decided to cancel it again this year.

In the presence of the enthusiasm which we have noted concerning the entries and the work already done, we regret to have to let you know that we cannot welcome your players, coaches, parents, partners for this beautiful event but I hope that it will really be possible next year.

Hoping that sanitary situation will get better and that you and your close relations will stay safe, we wish you all the best

Christophe PORTE
Président de la région Grand-Est

Christophe LAURENT
Président du club SUS Schiltigheim
